

ABOUT THE COMPATIBILITY PROGRAM

THIS IS NOT AN ALLERGY/INTOLERANCE TEST

Foods known to have caused anaphylaxis response, plus any known reactive foods.

SHOULD NOT BE REINTRODUCED

The focus of the Compatibility Programs delves deeply into the issue.

The purpose of this test is to correct the underlying problem that is causing your symptoms.

This is not an “allergy” or “intolerance test”. There are hundreds of components like fats, sugars and proteins that make up foods and it is impossible to accurately test for these individually as they appear in different combinations.

We test whole foods not individual components. Locating “allergic” foods and removing them usually relieves symptoms, but often does not get to the cause.

The situation is that some food/products cause the symptoms, while others aggravate the symptoms. These aggravations are what people usually pick up on. The pain is usually severe and immediate.

Currently, there is no known technology that can differentiate these reactions. This alternative test is exclusively administered by qualified Practitioners, monitoring your progress to ensure your best outcome.
